--Hugh Cannell took over this property in November of 1846. The earliest tax records show Hugh already paying \$700.00 in taxes in 1854.

--1850 Census shows Hugh being 50 years of age from England and listed as working as a laborer. He was married to Jane and they had 5 children

--1860 Census shows Hugh being 60 years of age from Ireland and listed as working as a laborer. Pigot Cannelle (sic) is listed under him. I believe that Jane probably died and this is his 2nd wife due to the fact that there is now a child 2 years of age listed under their names. Hugh died in 1879.
