

331 College

3rd Annual House Tour

October 14, 1978

8 *Fries/Kespohl House* 331 College Street

This 1866 house was originally identical to the Meyer House next door. It is a two-story T-plan brick Italianate with a wrap-around front porch. The windows are

typically rectangular, with stone lintels and sills. The glass transom and side lights at the front entrance are original. The house differs from the Meyer House in that shutters have been added and some first-floor window sills have been lowered.
