

Calling All Volunteers

Gardner Museum volunteers should plan on spending the morning of Saturday, April 26, at the museum. This will be the day of our annual volunteer appreciation coffee.

The event will begin at 9:00 a.m. Coffee and a light breakfast will be served by the staff and board to all of our dedicated volunteers. After eating and visiting with all those attending, the "Volunteer of the Year" award will be given to a volunteer who has served the museum above and beyond the call of duty. Past recipients have included Vera Magill, Jan Skiles, Doris Stipp, and Mary Einhaus. The 1997 winner will receive an Uptown Quincy gift certificate.

So mark this date on your calendar and be prepared to receive some T.L.C. This is the museum's way of showing our volunteers how much we appreciate your hard work.

Meet our new Board Members

Ruth Hultz came to the Quincy area 20 years ago after being married to a local resident. She currently teaches classes in English and in Human Health and Development at Berrian School. Ruth became involved with the museum while teaching her English students about Quincy's history. Ruth is looking forward to finding new ways to bring community school groups and clubs to the museum and promoting the museum's image as an active community resource.

Kristen Shore and her husband moved into the Quincy area 18 months ago from Bethesda, Maryland. Kristen has a Ph.D. in Psychology and is presently attending Rabbinical School. She was introduced to the Gardner Museum while researching her home in the historic Lawndale addition. She believes that continued and improved public programing will go far to promote the value of the Gardner Museum to the community.

Wayne Greenburg is the Vice President of Glenayre Electronics here in Quincy. Moving to the Quincy from Calgary, Canada, Mr. Greenburg has been in the city since October. After expressing his interest in historic architecture Wayne was recruited to become a member of the board by Carla Gordon. Wayne believes that creative fund raising techniques and strong volunteer support are vital to the Museum's future.
